

# ESTATE PLANK

## *Rustic Hickory Collection*

**Antique Impressions' ESTATE PLANK Rustic Hickory Collection** is a statement of refined historical elegance. This true American classic timber is without equal for its dramatic grain pattern which ranges from light tan to a rich brown. American hickory is relatively slow growing, resulting in some of the hardest, most durable flooring found anywhere. It's no wonder that hickory has been used for centuries whenever beauty, strength and a lasting impression are sought.

**Antique Impressions' Rustic Hickory Collection**, manufactured by *Creative At Home Inc.*, is a superior quality engineered floor, employing our advanced 3-layer solid-sawn core technology. Available in 7" wide planks with lengths up to 8' (average length over 75"), our **Rustic Hickory Collection** has been lightly hand-sculpted and wire-brushed, giving it a "timeworn" texture that speaks of a style which is both historic and enduring. All of the lumber used in our **Rustic Hickory Collection** comes from responsibly managed North American forests, providing peace of mind that our precious resources will be protected for generations to come.

Our low gloss finish conveys the most natural look possible, with a superior degree of protection. The **Rustic Hickory Collection** is available in natural and 3 distinct historical colours. Options for customization include a more aggressive hand-scraping, a broad palette of custom colours, oil-finished, or unfinished.

### Accessories

**In Stock:** Stair Nosings, T-mouldings, Reducers, Vents  
**Custom Order:** Stair Treads, Mantels, Mouldings, Baseboards

### Installation

Only 6" or 7" widths are suitable for use over radiant heat • 6" planks may be nailed down, full glue spread, or floated  
7" or wider widths should be nailed down with glue strips or full glue spread  
Please see the *Details* section of our website for more information on installation, adhesives, and radiant heat

### Engineered Composition: *3-layer solid-sawn*

**Top Layer: 4.5mm Solid Hardwood Wear Layer**

- Thick solid-sawn veneer allows for at least 2-3 re-sandings
- True solid plank look with engineered stability

**Middle Layer: 10mm Solid Alder Cross-Laminated Fillets**

- Superior rigidity prevents cupping and width shrinkage
- Nail down strength identical to solid wood flooring

**Bottom Layer: 4.5mm Solid Alder Balancing Layer**

- Same thickness as wear layer for ultimate stability
- Improved performance for glue-down applications
